new Sprint Shuttle

A combination of style, good aerodynamics and a lightweight quality body defines the Sprint Shuttle. A practical internal working height enables the Sprint Shuttle to not only accommodate taller cars, but also to act as a useful weather-proof refuge or even as a working facility at race meetings.

Overall trailer dimensions:

| | |
|-----------------|-------------------|
| OVERALL LENGTH | 5.53m (18ft 2) |
| OVERALL WIDTH | 2.30m (7ft 6) |
| OVERALL HEIGHT | 2.30m (7ft 6) |
| INTERNAL HEIGHT | 1.67m (5ft 6) min |

Race Shuttle RS2

Tailor made for classic period rally cars this low profile fully enclosed transporter comes with a number of important attributes. It is light, superbly aerodynamic and displays a finish detail equalled by no other. To achieve this RS2 features a number of advanced technologies in the construction of the body, all contribute to achieve a robust quality, without a weight penalty.

Overall trailer dimensions:

| | |
|-----------------|---------------|
| OVERALL LENGTH | 5.80m (19ft) |
| OVERALL WIDTH | 2.30m (7ft 6) |
| OVERALL HEIGHT | 1.94m (6ft 4) |
| INTERNAL HEIGHT | 1.53m (5ft 1) |

Race Shuttle RS3

A large format clam-shell operation enclosed trailer of significant ability and popularity. The range of applications in which the RS3 has been proven to be extremely capable extends from the world of rallying through to formula series racing.

Motor Shuttle

As vehicles become more valuable, more rare and desirable it is natural they require better protection in transport. The Safety and security needed comes from within a Motor Shuttle. Professionals know about the extraordinary ease with which it is possible to load super-low vehicles. They also know about the importance of a co-ordinated approach to securing their loads. In every way required Motor Shuttle has been carefully constructed to provide the solutions.
